Welcome back to term 3. It is great to see all the students return refreshed and ready to learn. Even with the cold weather we are seeing some great thinking and learning from all our students.

We have a great term of activities and learning organised. In reading we will continue with our Daily 5 literacy program. This week we have been getting students settled back in with their new teachers and getting their book boxes organised. We have also ensured all students have something to read every night at home.

In maths we have continued to work on building our number knowledge with different activities that make meaning to adding and multiplication facts.

We have begun our unit about Our Ancient World with lessons about rocks and Dinosaurs. We are organising an excursion which will incur a cost for the bus for the day. I hope that it is no more than $15.

This term we have our cluster day at Taradale on the 13th of August and the 3/4 camp to Pioneer Settlement in Swan Hill is on the 26th-28th of August.

Thank you to all the families who helped out over the holidays to keep our gardens and animals happy. Also to the Bennett family for providing some pellets and hay for Roast.

Thanks, Joe Sebire
The VIP’s this week are Zoe and Lucy. Thank you for doing your jobs so well and so diligently.

Connor and Kofi are the farm hands this week and they are doing a great job looking after the chooks and Roast.

The Sausage Sizzle is every Wednesday.

**Prices per student are as follows:**
- 1 sausage in bread + drink + fruit = $3.00
- 2 sausages in bread + drink + fruit = $4.00

Thank you to families who have helped with cooking and co-ordinating the sausage sizzle this year.

This term staff will be cooking the sausages. We hope this gives families the opportunity to assist the school in different ways.

**Please contact the school if you can provide fruit for any of the weeks.**

Bookclub order forms are being sent home today with the newsletter. Orders are due back Thursday 30th July.

LOCALY LOVED – INTERNATIONALLY ACCLAIMED
Asthma Kids is an online interactive “Asthma Trail” for all primary aged students. Asthma affects 10% of the population and Asthma Kids can help all students to gain an understanding about asthma in a fun way. When we surveyed school leaders and teachers about asthma resources in the school, you responded strongly that activities should be for all students, not just those with asthma. Asthma Kids works as a stand-alone lesson or provides a great starting point for cross-curricula activities around asthma and chronic conditions.

So get your class onto Asthma Kids at:
www.asthmakids.org.au
and help build better understanding and attitudes around asthma. National Asthma Week is 1-7 September of each year.

I’ve had Asthma First Aid today – new resource
In term 3 you will receive a new resource funded by the Australian Government as part of the Asthma Child and Adolescent Program (ACAP) – the same program that funds staff training in schools and this newsletter.

The resource is an easy way to let parents and carers know about the school’s management of an asthma incident for their child. It records details about the time and place of the asthma flare up, the medication administered and any follow up required to maintain your processes to react to asthma incidents.

The form will be made available as a writable pdf that can be provided by email to the family and easily kept in your electronic records. A limited number of DL forms will also be available. Both formats will promote our “You Care We Care” campaign to parents and carers.

In maths we have continued to work on building our number knowledge with different activities that make meaning to adding and multiplication facts.

We have begun our unit about Our Ancient World with lessons about rocks and Dinosaurs. We are organising an excursion which will incur a cost for the bus for the day. I hope that it is no more than $15.

This term we have our cluster day at Taradale on the 13th of August and the 3/4 camp to Pioneer Settlement in Swan Hill is on the 26th-28th of August.

Thank you to all the families who helped out over the holidays to keep our gardens and animals happy. Also to the Bennett family for providing some pellets and hay for Roast.

Thanks, Joe Sebire
**VIP’S**

The VIP’s this week are Zoe and Lucy. Thank you for doing your jobs so well and so diligently.

**SAUSAGE SIZZLE**

The Sausage Sizzle is every Wednesday.

**Prices per student are as follows:**

- 1 sausage in bread + drink + fruit = $3.00
- 2 sausages in bread + drink + fruit = $4.00

Thank you to families who have helped with cooking and co-ordinating the sausage sizzle this year.

This term staff will be cooking the sausages. We hope this gives families the opportunity to assist the school in different ways.

*Please contact the school if you can provide fruit for any of the weeks.*

---

**FARMHANDS**

Connor and Kofi are the farm hands this week and they are doing a great job looking after the chooks and Roast.

LOCALLY LOVED – INTERNATIONALLY ACCLAIMED
Asthma Kids in the classroom

Asthma Kids is an online interactive “Asthma Trail” for all primary aged students. Asthma affects 10% of the population and Asthma Kids can help all students to gain an understanding about asthma in a fun way. When we surveyed school leaders and teachers about asthma resources in the school, you responded strongly that activities should be for all students, not just those with asthma. Asthma Kids works as a stand-alone lesson or provides a great starting point for cross-curricula activities around asthma and chronic conditions.

So get your class onto Asthma Kids at: www.astmakids.org.au
and help build better understanding and attitudes around asthma. National Asthma Week is 1-7 September of each year.

I’ve had Asthma First Aid today – new resource

In term 3 you will receive a new resource funded by the Australian Government as part of the Asthma Child and Adolescent Program (ACAP) – the same program that funds staff training in schools and this newsletter.

The resource is an easy way to let parents and carers know about the school’s management of an asthma incident for their child. It records details about the time and place of the asthma flare up, the medication administered and any follow up required to maintain your processes to react to asthma incidents.

The form will be made available as a writable pdf that can be provided by email to the family and easily kept in your electronic records. A limited number of DL forms will also be available. Both formats will promote our “You Care We Care” campaign to parents and carers.

Term 3 2015
Welcome back to term 3. It is great to see all the students return refreshed and ready to learn. Even with the cold weather we are seeing some great thinking and learning from all our students.

We have a great term of activities and learning organised. In reading we will continue with our Daily 5 literacy program. This week we have been getting students settled back in with their new teachers and getting their book boxes organised. We have also ensured all students have something to read every night at home.

In maths we have continued to work on building our number knowledge with different activities that make meaning to adding and multiplication facts.

We have begun our unit about Our Ancient World with lessons about rocks and Dinosaurs. We are organising an excursion which will incur a cost for the bus for the day. I hope that it is no more than $15.

When we surveyed school leaders and teachers about asthma resources in the school, you responded strongly that activities should be for all students, not just those with asthma. Asthma Kids works as a stand-alone lesson or provides a great starting point for cross-curricula activities around asthma and chronic conditions.

Along with Asthma First Aid training for staff, having students know what to do if a classmate has an asthma flare-up contributes to a safe and supportive school environment for those with asthma.

When students complete Asthma Kids they get a certificate from Chester, the ‘host’ of the trail. Students are also eligible for the monthly prizes – this requires the teacher’s contact details to comply with internet guidelines for children.

As a further incentive, this term, one class that does Asthma Kids will receive a set of personalized products from Identity Direct, made up of a Teacher’s Prize Pack and a set of pencils for each child with their name engraved on each pencil.

So get your class onto Asthma Kids at: www.astmakids.org.au
and help build better understanding and attitudes around asthma. National Asthma Week is 1-7 September of each year.

Thank you to families who have helped with cooking and co-ordinating the sausage sizzle this year.

This term staff will be cooking the sausages. We hope this gives families the opportunity to assist the school in different ways.

*Please contact the school if you can provide fruit for any of the weeks.*

FARMHANDS

Connor and Kofi are the farm hands this week and they are doing a great job looking after the chooks and Roast.

SAUSAGE SIZZLE

LOCALLY LOVED – INTERNATIONALLY ACCLAIMED
Asthma Kids in the classroom

Asthma Kids is an online interactive “Asthma Trail” for all primary aged students. Asthma affects 10% of the population and Asthma Kids can help all students to gain an understanding about asthma in a fun way. When we surveyed school leaders and teachers about asthma resources in the school, you responded strongly that activities should be for all students, not just those with asthma. Asthma Kids works as a stand-alone lesson or provides a great starting point for cross-curricula activities around asthma and chronic conditions.

Along with Asthma First Aid training for staff, having students know what to do if a classmate has an asthma flare-up contributes to a safe and supportive school environment for those with asthma.

When students complete Asthma Kids they get a certificate from Chester, the ‘host’ of the trail. Students are also eligible for the monthly prizes – this requires the teacher’s contact details to comply with internet guidelines for children.

As a further incentive, this term, one class that does Asthma Kids will receive a set of personalized products from Identity Direct, made up of a Teacher’s Prize Pack and a set of pencils for each child with their name engraved on each pencil.

So get your class onto Asthma Kids at:
www.asthmakids.org.au
and help build better understanding and attitudes around asthma. National Asthma Week is 1-7 September of each year.

I’ve had Asthma First Aid today – new resource

In term 3 you will receive a new resource funded by the Australian Government as part of the Asthma Child and Adolescent Program (ACAP) – the same program that funds staff training in schools and this newsletter.

The resource is an easy way to let parents and carers know about the school’s management of an asthma incident for their child. It records details about the time and place of the asthma flare up, the medication administered and any follow up required to maintain your processes to react to asthma incidents.

When medication was administered ______ (time) ___ / ___ / ___ (date)  
[ ] by the student  [ ] by a staff member:  [ ] (name)

What dose administered was ___ puffs of ___  
[ ] Puffer and spacer used were [ ] the student’s own  [ ] from an Asthma Emergency Kit

Where the asthma flare-up occurred    [ ] in the classroom  [ ] during / after sport  
[ ] during recess / lunch break  [ ] other:

The form will be made available as a writable pdf that can be provided by email to the family and easily kept in your electronic records. A limited number of DL forms will also be available. Both formats will promote our “You Care We Care” campaign to parents and carers.
Welcome back to term 3. It is great to see all the students return refreshed and ready to learn. Even with the cold weather we are seeing some great thinking and learning from all our students.

We have a great term of activities and learning organised. In reading we will continue with our Daily 5 literacy program. This week we have been getting students settled back in with their new teachers and getting their book boxes organised. We have also ensured all students have something to read every night at home.

In maths we have continued to work on building our number knowledge with different activities that make meaning to adding and multiplication facts.

We have begun our unit about Our Ancient World with lessons about rocks and Dinosaurs. We are organising an excursion which will incur a cost for the bus for the day. I hope that it is no more than $15.

This term we have our cluster day at Taradale on the 13th of August and the 3/4 camp to Pioneer Settlement in Swan Hill is on the 26th-28th of August.

Thank you to all the families who helped out over the holidays to keep our gardens and animals happy. Also to the Bennett family for providing some pellets and hay for Roast.
